

RAMPART™ COLOUR-CODED TRAUMA SYSTEM

International Kit Portfolio, Phase 1: A clinically mapped, colour-coded system designed for how responders think, act, and decide under stress. Validated by UK and German field programmes. Available now across UK, EU, and Norway.

Key Differentiators

- **Clinical Mapping:** Organised by treatment priority—aligns with MARCH and TCCC protocols so the kit mirrors training flow.
- **Cognitive Science:** Colour-coding stimulates limbic memory retention, reducing cognitive load when it matters most (NLM, 2013).
- **European Validation:** Endorsed and adopted by NHS trusts, Bundeswehr, and Berlin Fire Brigade in operational field programmes.
- **Single-Lot Tracking:** One kit, one lot number—simplified inventory, expiry management, and procurement at scale.

Compliance

- ✓ NHS / PHEM Aligned
- ✓ TCCC- / TECC-Protocol Mapped
- ✓ NATO Catalogued (NSN available)
- ✓ Metric Specifications

Evidence & Endorsements

- **Bundeswehr Adoption:** Selected for German military field medical kits with measurable confidence gains reported.
- **NHS Trust Engagement:** Active procurement pathway exploration underway with UK NHS trusts.
- **Cognitive Science Research:** Colour enhances memory performance and reduces cognitive load (National Library of Medicine, 2013).
- **Eastridge et al. (2012):** 87.3% of combat fatalities occurred pre-hospital. Extremity haemorrhage is the leading cause of preventable battlefield death. ¹
- **GWB Partnership:** Guardians Without Borders co-marketing validates humanitarian and professional credibility.

The RAMPART System Advantage

- **System vs. Kit:** The RAMPART System is a clinically mapped system—not a bag of supplies. Every colour, label, and compartment mirrors treatment protocols.
- **Training Alignment:** Kit mirrors training flow—MARCH and TCCC. Reduces the gap between knowledge and execution under stress.
- **European-Led:** Designed for European responders, validated in UK and German deployments. Not a US product adapted for export.
- **Procurement Simplicity:** Single lot number per kit. Maximised shelf life. Streamlined ordering, inventory, and expiry management at scale.

Phase-1 Kit Portfolio

Kit	SKU	Market	Key Components
Stop the Bleed Kit Individual	PP0046	UK	(1) TMT Tourniquet, org.; (1) Haemostatic Gauze; (1) Nasal Airway, 7mm; (1) Russell Chest Seal; (1) Emergency Bandage, 6in; (1) Blanket; (1) Shears
Stop the Bleed Kit 5-Patient	PP0047	UK	(1) TMT Tourniquet, org.; (1) Haemostatic Gauze; (1) Nasal Airway 7mm; (1) Russell Chest Seal; (1) Emergency Bandage, 6in; (1) Blanket; (1) Shears
First Aid Kit Individual	PP0048	UK	(1) TMT Tourniquet, org.; (1) Haemostatic Gauze; (1) Russell Chest Seal; (1) WoundStop Care1; (1) Blanket; (1) Shears; (1) UK STB Guide
First Aid Kit Individual Refill	PP0049	UK	(5) TMT Tourniquet; (5) Haemostatic Gauze; (6) Russell Chest Seal; (5) Emergency Bandage, 6in; (2) Bandage, 8in
First Aid Kit Basic, CE	PP0050	EU	(1) TMT Tourniquet, blk.; (1) Emergency Bandage, T3; (1) Blanket; (1) Shears; (1) Nylon Bag
First Aid Kit Basic Refill	PP0051	EU	(1) TMT Tourniquet, blk.; (1) Emergency Bandage, T3; (1) Blanket; (1) Shears
First Aid Kit Advanced, CE	PP0052	EU	(1) TMT Tourniquet (blk.); (1) ChitoGauze XR Pro; (1) Nasal Airway, 7mm; (2) Russell Chest Seal; (1) Decompression Needle; (1) Bandage, 4"; (1) Blanket
First Aid Kit Advanced Refill	PP0053	EU	(1) TMT Tourniquet, blk.; (1) ChitoGauze XR Pro; (1) Nasal Airway, 7mm; (2) Russell Chest Seal; (1) Decompression Needle; (1) Bandage, 4"; (1) Blanket
