Standardized and organized according to the RAMPART™ Color-Coded Trauma System—an innovative yet simple color-coded trauma care system that aligns products by color and icon—our Working Dog Kits make it faster and easier to choose the right product, at the right time, for the right treatment, and preserve your partner's life.

The simplicity of the RAMPART™ System means that anyone on-scene has the tools to deliver life-saving trauma care—with or without a medic. Plus, every item in our Working Dog Kits (excluding muzzles) can be used on both K9s and humans.
